

Charles Gallo Drain Gun

Clears condensate drains

GG-1/GGC-6

The Charles Gallo Gun is a lightweight, portable tool designed to clear debris and blockages from condensate drain lines and other tubes and pipework, instantly. Avoiding the need to carry heavy bottles of air or nitrogen the service engineer simply inserts a simple disposable cartridge into the Gallo Gun and with a press of the trigger - SWOOSH - 800 psi of oil-free, environmental friendly; food grade CO2 clears the blockage.

- **Small & Lightweight** – fits easily in your pocket / tool kit
- **Flexible hose assembly** – allows access to hard to reach places
- **Environmentally Friendly** – totally safe and inert CO2 gas
- **Safety catch** – prevents the unintentional release of the CO2
- **Optional accessories include:-**
 - **Adaptor kit with oil burner connector**
 - **90° connector and larger tube adaptor (up to 1.1/8")**

INSTRUCTIONS: Unscrew the cup. Insert cartridge with the narrow end up. Without depressing the trigger, screw the cup slowly into the head until the cartridge begins to contact the puncture pin. Quickly and firmly screw the unit together to puncture and seal the cartridge in the same motion. **NOTE:** Not completely screwing the unit together may result in escaping gas. Release red safety catch. Depress lever to discharge the SWOOSH drain cartridge. For condensate drains, a quick and full discharge is best.

CAUTION: WARNING: Contents under pressure. Do not open Charles Gallo Drain Gun until cartridge is empty or injury may occur. Completely discharge cartridge before opening. Keep cartridge out of direct sunlight and temperatures above 120°. Do not discharge towards face or body. Keep out of reach of children. SWOOSH drain cartridges are Earth friendly. The gas used in our recyclable cylinders is carbon dioxide-commonly found in the atmosphere. For use on drain lines 3/4" or smaller diameter, or other industrial cleaning applications.

Material Safety Data Sheet available for professional user on request.
